

April 9, 2020

Product Change Notification

Products Affected: PA221K8I & PA271K8I - All Variations

Effective Date: April 9, 2020

Change Description:

PA221K8I Self Resonant Frequency (SRF) value will change from 570 MHz Min to 500 MHz Min

PA271K8I Self Resonant Frequency (SRF) value will change from 500 MHz Min to 450 MHz Min

Reason for Change:

Previous powder iron core material stock has been depleted and can no longer be obtained. Replacement powder iron core material yields lower SRF values. All other electrical characteristics will remain the same

Piconics apologizes for any inconvenience this has caused. Please feel free to contact us with any questions or concerns. Thank you.

Sincerely,

-Piconics Management
