

Piconics, Inc. Conflict Free Statement

Inductor Products

Series: CC, PGV, PSV, PKV, PV, PVW, B, SG, G, ST, TT, C, D, JA, JC, P, PA, PG, PK, PW, S, MG, M, MC, SP

Piconics, Inc. shares your concerns and commitment to help eradicate the use of gold, tin, tantalum, and tungsten which is mined in conflict countries around the world, including the Democratic Republic of the Congo.

Piconics is constantly working with its supply chain to ensure that our metal sources do not originate in countries where human rights are being violated. Piconics expects our suppliers to comply with the Electronic Industry Code of Conduct and source only from responsible suppliers; however, due to the complexities of the metals supply chain, Piconics Inc. cannot verify the origin of all metals used in our products or their intended use.

Piconics, Inc. is neither a smelter nor a processor of gold, tin, tantalum, or tungsten.
