General Inductor Manufacturing Operators

Piconics Inc, a leading manufacturer of Inductor components for the RF & MW Industry is seeking highly motivated individuals to join the inductor manufacturing department. Candidate must possess fine motor skill, good hand eye coordination and the ability to work under a microscope for extended periods of time. The positions are first shift with flexible start times. There are several operator positions available within the manufacturing department. Entry-level candidates are encouraged to apply as Piconics is willing to train the right person.

Typical Responsibilities/Duties:

- Using semi-automated manufacturing equipment to produce inductor products.
- Handling of fine gauge wires with tweezers.
- Loading & unloading of micro-sized parts into fixtures.
- Recording time & pieces produced on work travelers

Qualifications / Experience:

- Fine motor skill & good hand-eye coordination.
- Proficient with the use of tweezers and other small hand tool.
- Ability to work under a microscope for extended periods of time.
- Ability to follow both written and verbal work instructions.
- Positive attitude and a team player.
- Previous manufacturing experience is a plus.

Benefit of Working for Piconics:

Piconics is an equal opportunity employer with great benefits for full time employees. Benefits include an excellent health and dental plan, 401K, Short & Long Term Disability, Life and AD&D Insurance and Paid Time Off. In addition, Piconics is a family oriented company understanding the flexibility needs of working moms and dads.
