## Quality Control Inspector

Piconics Inc, a leading manufacturer of Inductor components for the RF & MW Industry is seeking highly motivated individuals to join the Quality Control Department. Candidate must possess fine motor skill, good hand eye coordination and the ability to work under a microscope for extended periods of time. The position is first shift with flexible start times.

### Typical Responsibilities/Duties:

- Perform visual inspection of inductor components and assemblies according to established procedures, specification drawings and both written and verbal instructions.
- Handling of fine wire & micro-sized components with tweezers.
- Ability to use metrology equipment such as rulers, pin gauges and Vernier calipers.
- Filling out work documentation to record defects.
- Recording time & piece counts on work travelers

### Qualifications / Experience:

- Fine motor skill & good hand-eye coordination.
- Proficient with the use of tweezers and other small hand tool.
- Ability to work under a microscope for extended periods of time.
- Ability to follow both written and verbal work instructions.
- Positive attitude and a team player.
- English is required.
- Previous Q.C. Inspection experience is a plus.

### Benefit of Working for Piconics:

Piconics is an equal opportunity employer with great benefits for full time employees. Benefits include an excellent health and dental plan, 401K, Short & Long Term Disability, Life and AD&D Insurance and Paid Time Off. In addition, Piconics is a family oriented company understanding the flexibility needs of working moms and dads.
