

## News Release

### **BAE Systems honors Piconics, Inc. with a 'Partner 2 Win' Silver Tier Award**

**Tyngsboro, Massachusetts – April 7, 2025** – Piconics, Inc. today announced it received a Silver Tier Award from BAE Systems' Partner 2 Win program. Piconics, Inc. was selected from a pool of suppliers that delivered exceptional performance and contributions to support supply chain success for BAE Systems' Electronic Systems sector in 2024.

"Our employees are truly deserving of this award," commented Dan Merrill, Vice President of Operation at Piconics. "Without their hard work, dedication and commitment to quality our products and the products that depend on them would not be possible."

BAE Systems' Partner 2 Win program is designed to achieve operational excellence and eliminate inefficiencies in its supply chain by raising the bar of performance expectations to meet the demands of current and future customers. As part of the program, BAE Systems meets regularly with its [suppliers](#) to transfer best practices and ensure the components and materials that compose its products meet the highest quality standards.

"I want to sincerely thank our winning suppliers for their exceptional support and groundbreaking solutions that have set new standards in our industry," said Jennica Dearborn, vice president of Operations, Electronic Systems. "We look forward to our continued collaborations that push the boundaries of what's possible."

#### **About BAE Systems**

The Electronic Systems sector of BAE Systems is part of a global defense, aerospace, and security company. We deliver products and services for air, land, sea, and space, as well as advanced electronics, intelligence, security, and IT solutions and support services. Our dedication shows in everything we design, produce, and deliver— to protect those who protect us in a high-performance, innovative culture. We push the limits of possibility to provide a critical advantage to our customers where it counts.

#### **About Piconics Inc**

Piconics is a world-class supplier of high-quality microelectronic inductors for a wide variety of applications in the space, military, telecom, test & measurement, and medical electronics industries. Piconics specializes in miniature space & military grade inductors along with tight tolerance, fine wire windings such as the Broadband Conical and Microwave Air Coil Inductors. Piconics keeps the innovative spirit alive by continuing to work with industry leaders in microelectronics to provide inductor solutions to the most challenging problems. Piconics is an ISO 9001:2015 certified company with all manufacturing taking place in the USA.
